

SPECTRUM

FINE CABINETRY

Job Title: High-End Cabinetry & Custom Millwork Installer

Location: [Boca Raton, FL]

Job Type: Full-Time

About Us

Spectrum Fine Cabinetry is a premier provider of luxury Italian cabinetry, delivering exceptional design and craftsmanship to discerning clients. We're looking for a skilled Installer to join our team and bring the same precision and care to every install that goes into every piece we build.

About the Role

As a High-End Cabinetry & Custom Millwork Installer, you'll be responsible for the on-site installation of premium cabinetry and custom millwork in residential and commercial spaces. This role requires meticulous attention to detail, strong technical skills, and the professionalism to represent our brand directly in clients' homes and job sites. Just as important, it requires someone who can think on their feet, as every job site is different, and not every install goes exactly to plan.

Responsibilities

- Install high-end cabinetry, custom millwork, and related fixtures per architectural drawings and specifications
- Measure, level, and align cabinetry with precision to ensure a flawless finish
- Coordinate with project managers, designers, and other trades on-site
- Handle and transport cabinetry and materials with care to prevent damage
- Identify and resolve on-site issues in real time — including dimension mismatches, missing pieces, or unexpected site conditions
- Fabricate or modify components using available or leftover materials when a custom, on-the-spot solution is needed (e.g., client requests, filler pieces, small adjustments)
- Perform final walkthroughs and adjustments to meet quality standards
- Maintain a clean, organized, and safe job site

Qualifications

- Proven experience installing high-end cabinetry, millwork, or fine woodworking (luxury/custom residential experience preferred)
- Strong knowledge of installation tools, techniques, and materials
- Ability to read and interpret architectural/shop drawings
- Strong problem-solving skills and the ability to improvise sound solutions under real-world constraints
- Excellent attention to detail and craftsmanship
- Comfortable working independently and making judgment calls on-site
- Strong communication and professionalism when working in client homes
- Valid driver's license and reliable transportation
- Ability to lift and maneuver heavy materials
